

Fanlink

Model: FLINKPIX

PIXIE Smart Home App Control Module
(for use with the Ventair SKYFAN)

WARNING: For your safety, this product must be installed by a licensed electrician to prevent serious injury or electrical hazard.

Installation:

1. Isolate power to the fan.
2. Twist fan canopy in a clockwise direction to drop it down.
3. Remove orange dust cover from the USB slot on the SkyFan receiver.
4. Carefully insert the FLINKPIX module.
5. Replace canopy by sliding upwards and re-fix by twisting anticlockwise.

App Selection:

There are two apps: PIXIE and PIXIE PLUS. Both are available for free on your Android or Apple mobile device.

The most suitable app for you will depend on your individual needs.

PIXIE is best used for customers who:

- Do not require out-of-home control.
- Do not require voice control.
- Prefer not to connect their smart home components to the internet.

PIXIE PLUS requires a Wi-Fi connection as well as a **SAL PIXIE GATEWAY (Available Separately)**.

Additional PIXIE PLUS features include: Out of home control, Voice control, Scheduling of Scenes as well as Google Home, Amazon Alexa, Siri & SmartThings support.

Adding your Skyfan DC to the PIXIE App:

- Ensure Bluetooth is enabled on your phone.
- Open the **PIXIE** App and allow any permission requests.
- **PIXIE** will automatically start searching for compatible devices.
- A list of compatible devices will be shown, locate your Skyfan and press "Add".
- Select "Finish" or "Add More" depending on the number of devices being set up.

Adding your SkyFan DC to the "PIXIE PLUS" App:

- Ensure you've created a **PIXIE PLUS** account and setup your **PIXIE GATEWAY**.
- Ensure Bluetooth is enabled on your phone.
- Open the **PIXIE PLUS App**, allow any permission requests & log in.
- Tap "Device" on Home Page the tap " " in the right corner and select "Add device".
- Locate target Fan. Tap the "Add" button, and the fan will be added momentarily.

Add Fan into the APP

Tap "Device" on Home Page

Tap "⋮" from right of corner. Select "Add device".

Locate the target Fan. Tap on the "Add" button, then wait and "Finish" when instructed.

On the device list, tap the bar under the Fan name to toggle Fan status. Tap the device name to get into the detailed device page.

Fan speed and light control as indicated.

Fan control via PIXIE (Advanced)

Tap "⋮" from right of corner. Select "Edit".

Edit Fan information, i.e., name, switch between summer/winter modes & various other function.

Tap "⋮" from right of corner, select "Timer Off". Choose the countdown period, tap "Start" to commence the sleep timer.

On "Timer Off" page, tap "<" from the left top corner to return to the detailed device page, where the sleep timer countdown can be seen.

Adding your SkyFan to the PIXIE PLUS APP

Tap "Device" on Home Page
Tap "⋮" from right of corner.
Select "Add device".

Locate the target Fan.
Tap the "Add" button,
then wait.

Once the device is added, tap on the icon to
rename or assign the newly added fan to a room.

Rename device

Create a new room

Assign the device to an existing room
