TOURBILLION

NEW PERFORMANCE DATA

In our continued commitment to detailed & accurate air movement across our ceiling fan range, and after many customer requests, we have retested the air performance of our Tourbillion ceiling fans.

We are pleased to advise that actual air movement of these models is significantly greater than previously advertised.

Please find new performance data below for both 60" & 80" models, and note the our online dealer catalogues, packaging & website data sheets have been updated to reflect this.

TOURBILLION 60

1	65 RPM	7,180 m ³ /Hr
2	84 RPM	9,500 m ³ /Hr
3	104 RPM	12,050 m ³ /Hr
4	125 RPM	14,175 m ³ /Hr
5	143 RPM	16,220 m ³ /Hr

TOURBILLION 80

1	65 RPM	14,650 m ³ /Hr
2	75 RPM	17,130 m ³ /Hr
3	84 RPM	19,655 m ³ /Hr
4	89 RPM	20,720 m ³ /Hr
5	95 RPM	21,270 m ³ /Hr
