Important Safety Issues:

- This product must be installed by a qualified electrician according to AS/NZS 3000.
- Ensure all electrical mains are disconnected before any installation.
- Modification of this product will void any warranty.
- Havit Commercial does not take responsibility for wrong installation, incorrect use, or use of installation material that does not belong to the system.
- Aluminium and 304SS fittings must not be installed within 5km of any salt water environments.
- All o-rings and seals must be in place correctly to maintain warranty
- This form may be updated at any time due to product improvements, please check online installation form for most current version.

Steps for Installation:

1. Make sure that the electrical circuit is free of voltage (master switch off)
2. Slide locking pin on base to open position
3. Insert track light into track making sure connection points are on correct side of track
4. Slide locking pin into closed position
5. Fitting is set to 3000k and 9w, while fitting is switched off remove front lens by pulling gently
6. Select desired colour temperature and wattage by sliding switches
7. Reattach inner ring by lining up magnets and release
8. Direct light fitting to desired position by twisting left and right or up and down making sure not to twist too far to avoid damaging fitting.
9. Repeat these steps if more than 1 fitting is being installed
10. All connections must be carried out carefully, inspect all contacts before switching back on the electric circuit.

Steps for Installation of Coloured Inner Ring:

1. Make sure that the electrical circuit is free of voltage (master switch off)
2. Remove inner ring from fitting by pulling gently.
3. Insert new coloured inner ring by lining up magnets and release.

Must be installed by a licensed electrician
