FOCUS.8 WHITE

SKU:LF3288WH

The FOCUS.8 recessed tri-colour LED gimbal downlight features colour temperature selection. The gimbal allows the FOCUS to tilt in either direction or appear flush when directed straight down. The light output from the SMD LED in the FOCUS is collected into a 60 degree beam. The recessed design reduces glare while maintaining high light output. Dimmable with most LED friendly dimmers providing further control over ambience. The matt finished plastic trim and reflector increase corrosion-resistance, ensuring durability over time.
