Installation Guide

The installation guide consists of six numbered steps and a warning section:

- 1 SWITCH OFF:** A diagram shows a hand flipping a switch to the 'OFF' position.
- 2:** A diagram shows the lamp being inserted into a ceiling cutout. A circular cutout is labeled with a diameter of Ø100mm.
- 3:** A diagram shows the lamp's internal wiring being connected to the ceiling's electrical supply.
- 4:** A diagram shows the lamp being pushed up into the ceiling cutout.
- 5:** A diagram shows the lamp fully seated in the ceiling cutout.
- 6 SWITCH ON:** A diagram shows a hand flipping a switch to the 'ON' position.

Warning: When switching the 3-CCT dip switch to change colour temperatures, it is recommended to switch colours while the power is off to avoid damage to the product.

The warning section also includes a diagram of the lamp with a circular inset showing a 3-CCT dip switch.

Note: -The lamp must be installed by professional electrician
 -Ensure the power supply is switched off before fitting this product

-Do not touch the lamp when in use
