

THOR-PRO-23-SM

Specifications

Voltage:	240V AC	Beam Angle:	15°, 24°, 36°, 45° & 60°	Dimmable:	Yes
Power:	23W LED	CCT:	3000K - 4000K - 5000K	IP Rating:	IP20
CRI:	≥90	Lifespan:	50,000hrs		

Lumen (±5%):

	3000K	4000K	5000K
White	2000lm	2100lm	2000lm
Black	1700lm	1800lm	1750lm

Installation Guide

The installation guide consists of seven numbered steps and a warning section:

- 1 SWITCH OFF:** A diagram showing a switch being turned off with a downward arrow.
- 2:** A diagram showing the lamp being inserted into a ceiling hole. The hole diameter is indicated as 32mm.
- 3:** A diagram showing the lamp being pushed up into the ceiling.
- 4:** A diagram showing the electrical wiring being connected to the lamp's terminals.
- 5:** A diagram showing the lamp being fully seated in the ceiling.
- 6:** A diagram showing the lamp being rotated to the desired angle.
- 7 SWITCH ON:** A diagram showing a switch being turned on with an upward arrow.

Warning: When switching the 3-CCT dip switch to change colour temperatures, it is recommended to switch colours while the power is off to avoid damage to the product.

The warning section also includes a diagram of the 3-CCT switch on the lamp and a diagram of the dip switch on the ceiling.
