Description

The Instinct DC ceiling fan with LED light by Mercator is an energy-efficient and ultra-low profile ceiling fan. At only 183mm from ceiling to blades the Instinct is perfect for low ceilings.

The Instinct LED combines the latest in DC motor technology with three ABS moulded blades to create excellent air movement whilst operating quietly and only consuming a fraction of the electricity used compared to a standard AC ceiling fan. The LED light is a quad colour light (Warm White / Neutral White / Cool White / Daylight). The LED light is also dimmable via the remote control.

The Instinct DC ceiling fan comes complete with a remote control with the following features:

- 6 adjustable speeds
- Light on/off
- Light dimmer
- Summer/winter reverse
