Description

The newest in Smart technology!

Mercator's Ikuu range has launched with a vast range of Smart products for your home now available!

The Minota DC ceiling fan in White and Light Timber has an incredibly efficient and whisper-quiet 35W DC motor, with 6 total speeds available on the remote and Ikuu app. Its 3 ABS moulded plastic blades and powder-coated metal motor housing ensures quiet operation. These include bedrooms, living and dining areas.

A 20W LED light is included with this model with dimmable and CCT functions available through the included 6 speed remote and Ikuu app. CCT is colour tuneable from 3000K - 5700K producing a lumen output from 900 to 1000 lumens.

The Ikuu app (available on Apple App Store and Google Play) allows automation and customisable timers for the fan when connected to WiFi (2.4GHz), setting up routines for more efficient usage.
